CAREER OBJECTIVE

- A responsible student with a strong academic background with the ability to think through a problem coupled with the confidence to make ideas heard. I am currently looking for an opportunity that will allow me to work alongside an expert team of talented individuals.

PROJECTS

Travello || Python Full Stack, MySQL

March 2022

Developed a web application using the Python Django framework, we aim to create a seamless and enjoyable experience for users in the travel, tourism, and hospitality industry. The project enables users to plan, book, and manage their travel experiences conveniently while providing an engaging platform for businesses to showcase their services and offerings.

Student Assessment Management System|| Spring Boot,MySQL

Nov 2022

This project is a web based Application that will provide a user friendly interface for teachers and administrators to create, schedule, and grade assessments, while students can access their assessments and view scores.
